

### **International Books To Help You Get Started:**

**OddsJam** – This is where the magic happens, and it's essential for raking in serious cash. Remember, you can bet domestically—if it's legal in your state—for just under \$200. But if you want to go international (and trust me, that's where the big money is), your monthly fee is just under \$500. You will get at least 1 week trial and if you follow the plan, it's possible you will make your money back for the training and this software your first week.

**Bookmaker** – An excellent book to “win into”. I love these guys. Be sure to create a strategy where you are not always winning into the same book each bet. Spread the wins/loss love across all books.

**BetOnline** – A comprehensive online sportsbook and one of the most popular sports books in the world. The platform offers various promotions, payment methods, and responsive customer service to enhance the overall betting experience. 35% promotional bonus for reloads after initial deposit.

**SportsBetting** – This is one of my personal favorites and sister site to [BetOnline](#). Check the promos tab at top of page for initial deposit offers.

BetUS.com.pa – Fantastic 200% crypto bonus with your first deposit. It is advised to take full advantage and maximize these one time opportunities when signing up for new sites. 20% CASH BONUS with 6X rollover. Contact Me for a referral link @ [info@odds-flex.com](mailto:info@odds-flex.com). These guys give a 300% referral bonus up to \$6000 on first, second and third deposit. I just need your email address you sign up with.

**Betwhale** – Ask in their website chat about their welcome promotions. My first one was 150% match up to \$1250. You will not get it if you do not ask.

\*\*\*I earn a referral commission/bonus when you sign up through my links. This does not cost you anything and will sometimes create additional bonuses for you. If you need assistance setting your referral links up, I am happy to help. Send me an email to [info@odds-flex.com](mailto:info@odds-flex.com) once the account is open and I will help.
